

Whenever doubt springs from the mind's soil  
Thoughts of a positive nature begin to wilt:  
For the onset of doubt disrupts tranquility  
Establishing a dire presence within the depths  
Of the mind's vault: gradually distorting what  
Remains of the higher vibrational frequencies  
Which provide the mind with a deep sense of calm  
When everything else has given way to despair:  
The chords of disharmony tainting every sphere  
They influence within the mind's morphic field:  
The shift in frequency directly influencing the  
Natural rhythm and flow of thought forms.
